## Notes

- Present:
  - Jon Williams, Janelle Kay, David Olson, William Wassell, Barry O'Keefe, Hope Johnson, Nicole Zinn, Daniel Halpert, [Maryam Muhammad], Laura Bacon
- Introduction
  - Identification of Task Members (see slides)
- Overview of status of ongoing studies
  - June 2019, b/c of regurgitation
  - Larvae Chronic Tox: in negotiations to use some EU data; also only tested up to 50 mg, so going to run the study, but may submit the EU data as well
  - DFR: low, but consistent recoveries, could be acceptable; Fall of 2019 for submission date
- DFR/TTR studies
  - Review of proposed crops
  - Review of proposed locations
  - Possible use of EU data
- Any other business?
- CDX Submission and Creation of Cost-Sharing Consortium
- How is the data doer and where is United Phosphorous's 90-Days Response? Sorted
